The Bank Hotel Istanbul is the crown jewel of the Marriott International design hotel brand , steeped in history and an example of eclectic architecture.

Отель The Bank Hotel Istanbul находится в знаменитом финансовом квартале Стамбула. В здании в стиле неоренессанса, начиная с XIX века, располагался банк. Современные же дизайнеры решили сохранить исторический флер делового мира, который чувствуется уже в холле — на прекрасной исторической лестнице, что придает индивидуальности отелю.

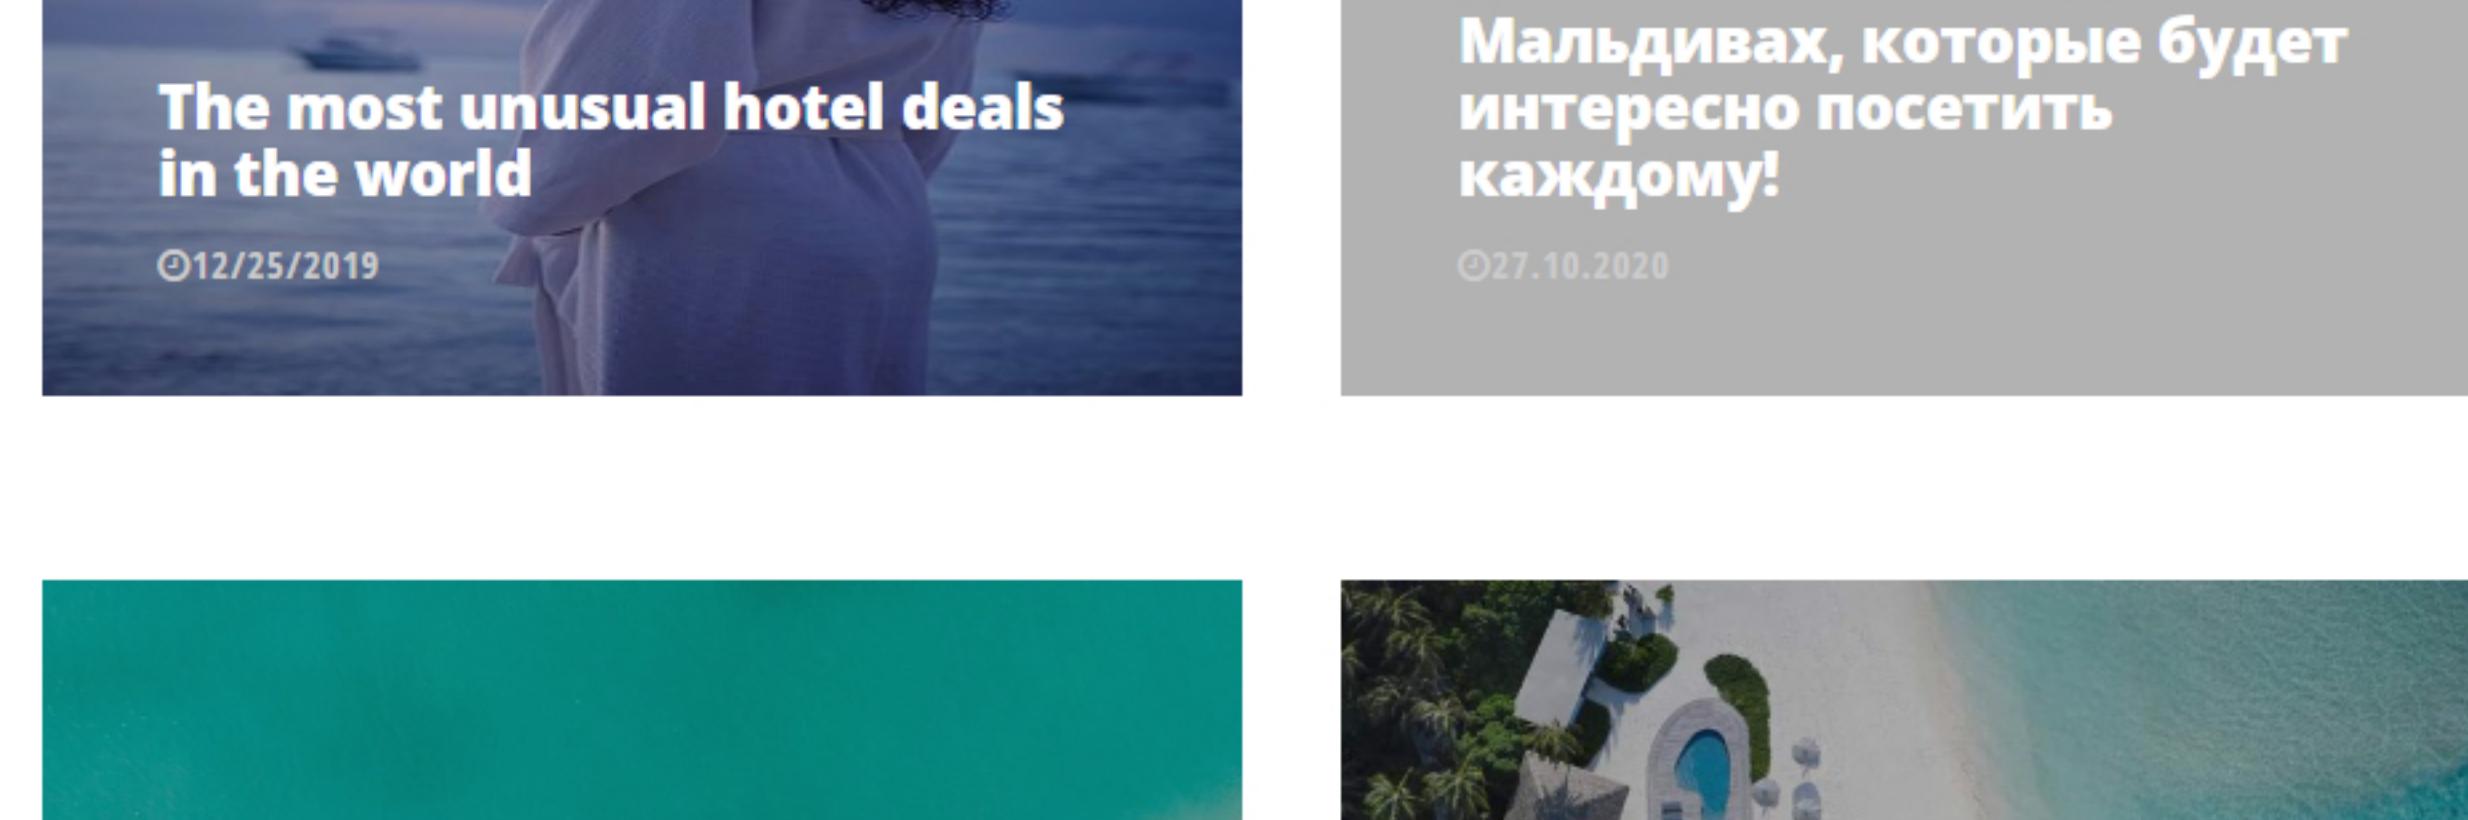

Halls and locations also have character. Here you can hold a meeting in bank vaults, study historical cash registers, old books and interior items of the century before last.

Banks Street, where the hotel is located, is the heart of the Old City of Istanbul with historical monuments and museums, and within walking distance is the Sultan Ahmet Mosque - the famous Blue Mosque.

The hotel's restaurant serves a buffet breakfast and serves international and Turkish cuisine. Huge windows, high ceilings and columns create a feeling of spaciousness in the room. And tall plants, comfortable chairs and a collection of modern literature will provide an atmosphere of comfort at any time of the day.

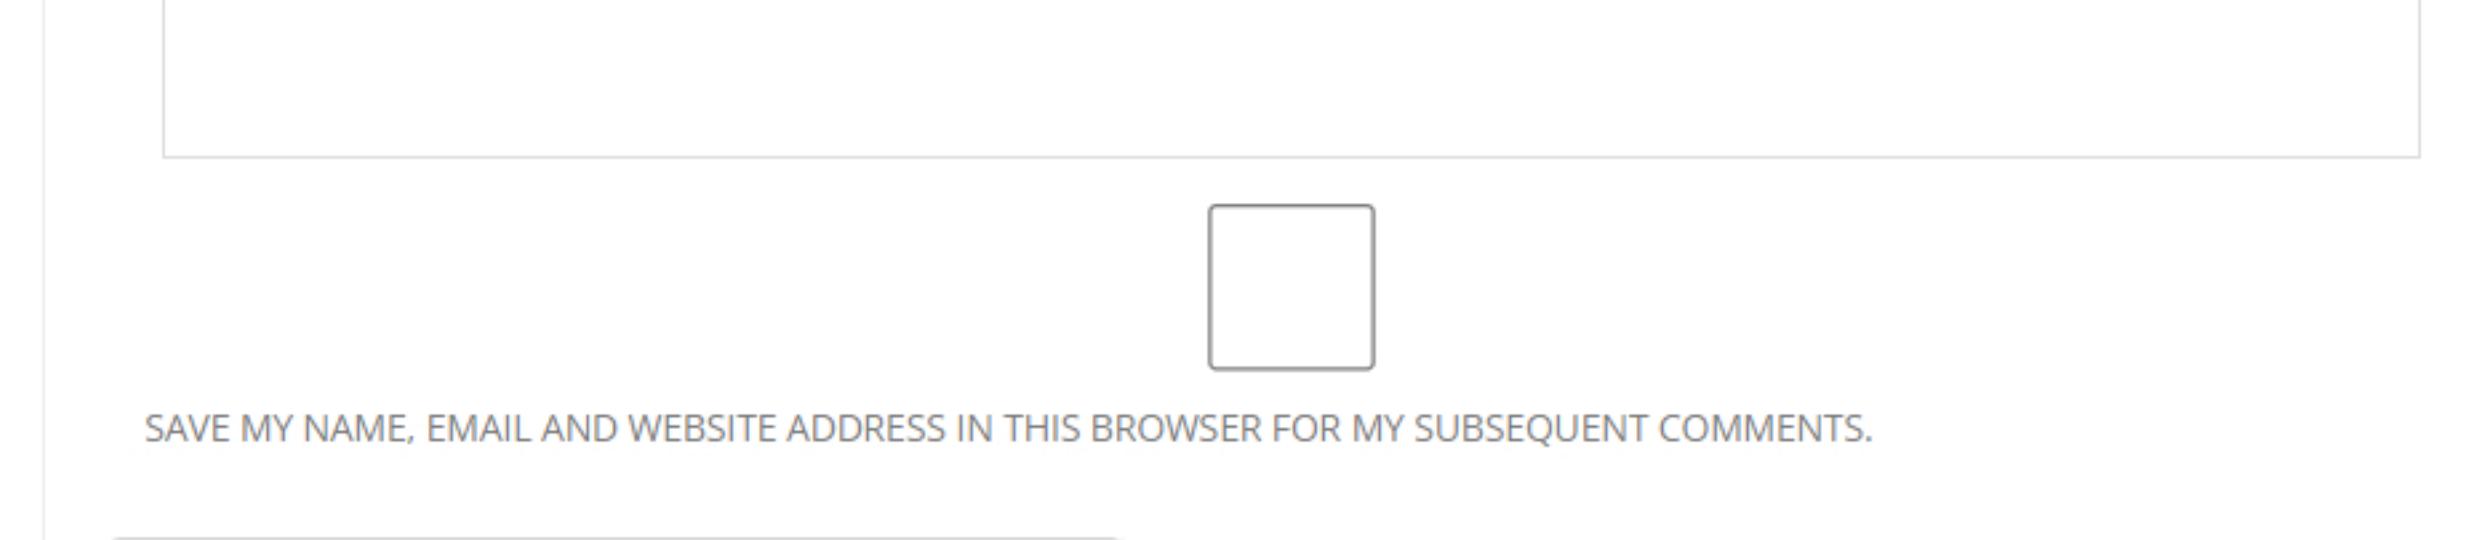

Other facilities at The Bank Hotel Istanbul include a spa center where you can relax and enjoy a traditional Turkish massage.
